LEARNING COMMONS: There has been an increase in broken Chromebook screens from accidental damage over the last few weeks. The LCD screens in the Chromebooks are easily cracked when any type of pressure is placed upon the outside of the screen case or the device is dropped. While not required, you can help mitigate the need for screen repairs by purchasing a cover to protect the device. Covers are available in the PTSA student store for \$25 or you may opt to purchase one at any retail outlet.

#SpeakUpWeCare-In an effort to provide the best support and resources to our students here at PHS we have developed a QR code for students to be able to get in contact with a Counselor at any given time throughout the day. This will allow students to access us from the classroom or anywhere on campus should they not be able to make it up to the office. This will help us also gather data and will help when students come to see us if we are not available to ensure we are providing them the support that they need. Click [HERE](#) for the link to the QR code and info flyer.
